Report on sports days (27th and 30th January 2023)

From January 27 and January 30, 2023, the Department of Applied Science at Uka Tarsadia University enthusiastically celebrated the 9th sports week. We at the Department of Applied Science held three days of sporting events that were controlled by a set of regulations that ensured fair competition in order to maintain and improve physical ability and the corresponding skills while offering delight for participants and entertainment for spectators. Every member of the Department of Applied Science took part in both the indoor and outdoor competitions.

Faculty members played various activities with students while keeping an eye on their passion and attitude. Sports Day is a time when the gifted kids who compete in intramural sports are recognised and honoured. Intramural competitions help students meet new individuals and form new friendships while also lowering stress and improving leadership skills.

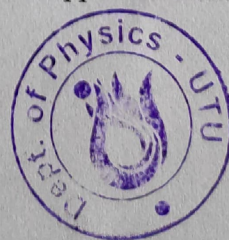

Dr. Anand Patel, Dr. Dharmesh Chejara, Dr. Amrutlal Prajapat, Dr. Rajamouli Bodulla, Mr. Hitesh Rajput and Mr. Ankit Patel organized the whole event along with support of staff members from Department of Applied Science. Almost 163 (31 girls and 132 boys) students participated with great enthusiasm; all the participant has played various games in this festive with healthy competition between different classes of institute. All the staff members contributed greatly to it by both ways of participation and organization.

Department of Applied Science has organised auction based Applied science premier League for Cricket in which 4 faculties has acted as owner followed by auction on 20th January 2023. Each owner has been allotted maximum of 2000 point to build his team of 15 members.

Following games were held during the sports event:-
