Report

Mr. Akash Mistry, an alumni Student, currently working at Government School, Mokampura, Vadodara, shared invaluable insights and strategies during a discussion focused on mastering competitive exams after completing an M.Sc. He shared key tips for cracking exams. He emphasized to concentrate on what you're good at and working on what you need to improve. Staying strong-minded and not giving up when things get tough is important during preparation. He suggested using different study materials, like books and online resources, to understand better. Finally, he stressed that no matter what happens after the exam, it's essential to stay positive and keep moving forward for success.
