## Uka Tarsadia University

"Congratulations to **Dr. Sachinkumar G. Modha** for receiving the prestigious **“Distinguished Lectureship award”** from the Chemical Society of Japan, March-2020"

The distinguished Lectureship award: It is awarded to young distinguished Asian researchers (45 years old or younger) and is given to those who have achieved remarkable results in chemistry fields. Lectureship Award winners are requested to give a Keynote Lecture at the Asian International Symposium organized as part of Annual conference of Chemical Society of Japan. Venue for the event was Noda Campus, Tokyo University of Science, Chiba, Japan The award also includes a subscription to the Journal of CSJ.

There are total 15 researchers from Asia who are selected for the award for the year 2020. Sachin received the award for his contributions in the field of Photochemistry.

Check the below link for further details about the Lectureship award, CSJ, Japan.
