

Shrimad Rajchandra Institute of Management & Computer Applications

Gopal Vidyanagar, UTU-Bardoli

MCA 5th Semester

040010502 – SharePoint Development

Unit Test – 2(b) (Set A)

Date: 4-10-2013

Time: 50 Mins.

Total Marks : 25

Q-1 Write answers in short. (Any 4)

[08]

- Differentiate Sites and Sites Collection in SharePoint?
- What can you do with the help of Audit Settings of Site Collection?
- What do you understand by Suggested Browser Location settings of SharePoint?
- What are Content workflows?
- What do you understand by Variables and Parameters in workflow? Give an example.

Q-2 Do as directed

[07]

- Which Condition under Workflow will satisfy the situation mentioned below:
“Compare any two fields to each other, from any list or library on the site. When fields from other lists are selected, a matching field must be selected in the “Find the List Item” section.

OR

- A user of SharePoint website would like to customize his site by adding a new heading in the Quick Launch namely “TRAINING & DEVELOPMENT” and “RECRUITMENT & SELECTION”. He is also interested to change the order of these headings just added by him i.e. “RECRUITMENT & SELECTION” should appear before the “TRAINING & DEVELOPMENT” heading. He also would like to change the master page of his site to HR. master. How would he do so?
- Under what circumstances will Manage Content and Structure option of Site Actions led to error? What should be done in order to resolve this issue so that a user can manage the contents and structure of his/her site?

[Bonus of 2 marks]

OR

- The marketing department has a custom picture library approval status workflow. They would like to see a Visio diagram of a live flowchart that shows the steps of the workflow, and what activity has taken place. What setting do you recommend that they use?

[Bonus of 2 marks]

Q-3 Answer the following questions in detail: [Any 2]

[12]
