

A Seminar on “Technical Analysis”

A session was conducted on Technical Analysis of Stock Market. Total 45 students of BBA and M.Com actively participated in session which gives additional knowledge and skill which can be added up to their further career.

Mr. Rohan Desai, Triumph Capital, Surat, who has 10 years of experience in the field. He started session with introduction of stock

market, and the glimpse of fundamental analysis like GDP, Macro and Micro economy etc. He has covered various aspect of technical analysis like head & shoulder, RSI, MACD, chart pattern, support level, resistance level, trend line, moving average, Exponential moving average, crossover etc. He showed some current charts of the stocks and explained how to identify the minor trends (minor trend up and minor trend down) by giving live example of Maruti, Eicher Motors, Colgate, Reliance Communication etc.

Mr. Devendra Thakur give useful insight about investing in stock market such as how monitoring of stock market is important, how can you get the signal?, Which combination of tools you can use for confirmation of signals etc. The students shown key interest and participated with full involvement. This session was ended with Q&A sessions. He suggest student to visit any firm for getting practical knowledge and even invest hypothetically for better understanding. Finally student gets useful insight and highly motivated by attending the session.
