

Myself Hetal V. Lakkad. I joined Uka Tarsadia University, Department of Chemistry in 2015, for Integrated M.Sc. Chemistry.

This journey of five year was incredible and this institute played a vital role in my career. I learnt how to define one's vision and courage to pursue them.

The management and faculty, everyone is so helpful. The faculty of institute gave great support and inspiration to us throughout all the semesters and dissertation work. We have been provided with well equipped laboratory and with the vast library that open window to world and inspire us to explore, achieve and contribute to improve our quality of life.

I owe all those people a debt of gratitude for all support and help the have given to me during this 5 year journey.

Hetal Lakkad

B.Sc.Chemistry(2015-2018)

M.Sc. Analytical Chemistry(2018-2020)
