

Monika Lohiya.p.  
B.sc & M.sc Organic Chemistry  
Department of Chemistry,  
UTU.

This is a glorious moment for me when I am writing few words about my college. It helped me make my future bright.

My experience :- My experience of (5 years) at UTU has taught me one fundamental thing - "Life is unpredictable". It might be good, it might be bad, it might be weird and it might not interest you, but expect anything to happen.

Environment of college :- Environment of UTU (Dept. of Chemistry) was very nice just like a family. The faculties were like a backbone for me, friends were the reason for my smile and junior are like younger siblings.

Memories :- This five years were like 5 days for me which completed very fast. But, during this days many memories have been created. Especially the festivals, the activities like dance, games, different types of competition. My days at Dept. of Chemistry are precious memories of fun, activity and enjoyment together with studies.

DATE

Changes we should do in Department of Chemistry?

- Provide variety of learning activities, including group work, role play and online interaction.

Thankful :- I am thankful to all the Faculty members for their continuous effort and supports. Each of the Faculty members helped me with my up and downs and shaped me into a better, responsible and successful person.

Department of Chemistry made me the person, who I am today! "Bold & Confident...."!!

Thanks for everything, my biggest learning has been here at Department of Chemistry (VTU) [2016-2021].
