

I joined Uka Tarsadia University, Department of Chemistry in 2015 for B.Sc Chemistry. The three years journey here has been a great learning experience for me. The teachers are very Cooperative, not just technical knowledge or carrier guidance we could also discuss personal problems with them. They have been a great source of motivation and this is what made me shine up and brought me to the place where I am today.

With the largest library of Gujarat, our college not only gives us the platform but also backs us up by providing the necessary books. It is a lush green campus which brings out the positivity within us. There is always a room for creative ideas and projects. Even my friends and seniors have been very cooperative. The reason why I have acquired the necessary life skills and the exposure to the world is all because of them.

I am grateful to all those people who have been responsible for the most memorable three years of my life.

Thank you

Nikita M. Patel

B.Sc. Chemistry

(2015-2018)
