

# **SHRIMAD RAJCHANDRA COLLEGE OF PHYSIOTHERAPY**

## **Topic: Expert talk on Physiotherapy Approaches to scoliosis**

**Date: 26<sup>th</sup>, 27th June and 6<sup>th</sup>, 7th of July**

**Resource Person: Dr. Sneha Somarajan**

Shrimad Rajchandra College of Physiotherapy organized Expert talk session. Dr Sneha Somarajan, Assistant Professor at Shrimad Rajchandra College of Physiotherapy, was the instructor for a hands-on expert-talk on physiotherapy approaches to scoliosis for 4th Year B.P.T. students. This session covered topics such as introduction, different types of scoliosis, and the equipment used for measurements, among others. The students were also given a practical demonstration. Students learned how to use specific equipment to measure and assess the angle of degree, which is an important part of clinical assessment. Students were divided into two groups and practiced in the musculoskeletal lab. Various questions about the various schools of physiotherapy for scoliosis were discussed with the instructor and practiced by students throughout the session. The expert talk was attended by approximately 90 students.
