

# **SHRIMAD RAJCHANDRA COLLEGE OF PHYSIOTHERAPY**

## **Topic: Functional scales in orthopedics: A comprehensive list**

**Date:5<sup>th</sup> July and 13<sup>th</sup> July**

**Resource Person: Dr. Sneha Somarajan**

"Shrimad Rajchandra College of Physiotherapy recently organized an expert talk session for fourth-year Bachelor of Physiotherapy (B.P.T.) students, led by Dr. Sneha Somarajan, Assistant Professor. The session focused on "Functional Scales in Orthopedics: A Comprehensive List", providing students with an in-depth understanding of various assessment tools and scales utilized in orthopedic practice. With 72 students in attendance, the interactive lecture effectively bridged the knowledge gap, as many students were previously unfamiliar with these scales.

Dr. Sneha Somarajan's expert guidance and practical examples seamlessly transitioned the students from theory to practice, enabling them to accurately measure and assess patients. The hands-on experience was a highlight, as students practiced using the scales on each other, solidifying their understanding and making the session enjoyable and engaging. As a result, the students demonstrated keen interest in learning more, and by the end of the session, they had gained a thorough understanding of how to apply these scales in real-world scenarios, making it a truly informative and beneficial experience.
