

TOPIC OF Expert Talk : ‘Brachial plexus & its Injuries’

RESOURCE PERSON: Dr.Snehal Patel

DATE: March 13th ,14th and 20th ,21st 2023

NO. OF STUDENTS PARTICIPATED: 95

SEMESTER: 4

Learning happens when the line of the subject flows with the understanding of students. Flowing on this perception an Expert talk on ‘**Brachial plexus & its Injuries**’ was organised by Shrimad Rajchandra College of Physiotherapy. The expert talk was conducted on March 13th ,14th and 20th ,21st 2023.

Dr. Snehal Patel introduced the subject by teaching the students to draw the brachial plexus in 30 seconds. The session continued with Dr. Snehal demonstrating the Roots, Trunks, Divisions, Cords and Branches of Brachial plexus to all the students.

Along with this, she also introduced the **Mneumonics** for remembering the brachial plexus. In this talk different Brachial plexus injuries were also taught. Memorizing and recalling strategies were also introduced during the session. Most of the students also provided **Feedback** at the end of the session which highlighted their curiosity to learn by new methods. Total 95 students from Fourth semester attended the talk.
