NO. OF STUDENTS PARTICIPATED: 62

SEMESTER: 8th

WORKSHOP CONTENT:

For 4th year B.P.T students, an expert session on "Airway clearance strategies: choosing the best one" was organized.

Dr. Hiral T. Shah (PT), the session expert, provided her unique knowledge of the clinical anatomy of the respiratory tract, normal and impaired airway clearance, and various airway clearance strategies. She offered a hands-on demonstration of each technique and explained the differences between them. She also offered them guidance on how to put this knowledge to use in their daily practice. The participants were able to actively learn because of the wonderful interactive discussion period during the presentation.

This will further pique participants' interest in learning and applying these tools and tactics so they can work more productively.
